CERTIFICATIONS

ITIL® 4 Foundation Certificate in IT Service Management

(Certificate: GR671807881NA | Valid: Sep 2025 - Sep 2028)

PROFESSIONAL EXPERIENCE

Associate IT Technical Support Engineer

Oct 2022 - Present

NTT (Thailand) Limited

- Provide hands-on support and maintenance for core IT infrastructure systems including Door Access Control and CCTV Surveillance (camera configurations, network connectivity, video storage).
- Utilize Cisco Meraki cloud-managed solutions for network monitoring, troubleshooting, device provisioning, and centralized configuration.
- Manage and track IT support tickets using ServiceNow, focusing on incident logging, prioritization, and resolution tracking.
- Configure VLANs, monitor network traffic, perform firmware upgrades on network switches, and coordinate with ISPs for connectivity stability.

IT Support

2019 - 2022

Thailand Development Research Institute (TDRI)

- Maintained and repaired hardware and peripherals including Personal Computers, Laptops, Printers, Scanners, and CD Writers.
- Managed network connectivity to servers, network printers, and shared resources; verified port/cable connectivity using LAN Testers.
- Applied OS patches, program patches, driver updates, registry optimizations, and performed regular system log verifications and disk maintenance.

IT Support (On-site Services)

2014 - 2015

Central IT

- Upkept and maintained user hardware, laptops, and peripheral systems upon service requests.
- Maintained CCTV systems, performed software/driver installation, and solved general connectivity problems.

QC / QA (Survey Operations)

2011 - 2012

KRC Services & Transports

- Inspected shipping containers for damage and cleanliness to ensure completeness before customer delivery.
